PROFESSIONAL SUMMARY

Automation Test Engineer with 5+ years of experience in web, mobile, desktop, and API testing with expertise in Playwright, Selenium, Appium, REST Assured, JavaScript, Python, and CI/CD automation. Skilled in designing scalable automation frameworks, AI-assisted testing workflows, test strategy creation, release ownership, and SDLC/STLC processes. Authored 2000+ test cases, mentored junior QA engineers, developed internal productivity tools, and improved testing efficiency by 70% using AI-driven workflows and automation optimization.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript | **Automation:** Playwright, Selenium WebDriver, Appium, REST Assured | **Testing:** Functional, Regression, API, Smoke, UAT, End-to-End, Mobile Testing | **CI/CD & DevOps:** Jenkins, GitHub Actions, Parallel Execution, Slack Notifications, Report Generation | **Tools:** Postman, Git, GitHub, Jira, Docker, AWS | **Database:** MySQL, MongoDB, SQLite | **AI & Productivity:** Prompt Engineering, AI-assisted Testing, Automation Optimization.

PROFESSIONAL EXPERIENCE

Simply Vyapar Apps Private Limited – Software Test Engineer | Sept 2023 – Present

- Designed, authored, and maintained 2000+ manual and automation test cases for mobile and desktop accounting applications.
- Contributed to AI-powered Playwright automation framework design for desktop application testing.
- Mentored 4 junior QA engineers on automation, debugging, testing strategy, and QA best practices.
- Developed internal tools including SQLite DB Compare Tool and Mobile Database Viewer utility for debugging and validation.
- Executed automation testing for web, mobile, desktop, and APIs using Playwright, Selenium, Appium, and REST Assured.
- Improved testing productivity by 70% using AI tools, prompt engineering, and automation optimization techniques.
- Owned release testing cycles, requirement analysis, production issue validation, PR reviews, and cross-team collaboration.
- Implemented CI/CD automation using Jenkins and GitHub Actions with parallel execution, reporting, and Slack notifications.

Tata Consultancy Services (TCS) – Assistant System Engineer | Dec 2021 – Aug 2023

- Executed functional, regression, API, and UAT testing across enterprise software releases.
- Performed API automation and validation using Postman and REST Assured.
- Created test plans, defect reports, release summaries, KT documents, and testing assets.
- Collaborated with development and client teams for production issue handling and release validation.

CEDCOSS Technologies Pvt. Ltd. – Software Engineer (Trainee) | Oct 2020 – Nov 2021

- Performed manual and API testing for client web applications.
- Prepared testing documentation including defect reports, test plans, and release reports.
- Supported release quality improvements through structured regression testing and validation.

KEY PROJECTS

- **AI-Powered Automation Framework** – Contributed to intelligent Playwright-based desktop automation framework design.
- **Vyapar DB Compare Tool** – Developed Python + SQLite utility for database schema/data comparison and debugging.
- **Mobile DB Viewer** – Built Android utility for viewing and validating SQLite databases directly on mobile devices.

EDUCATION & CERTIFICATION

B.Tech – Electronics & Communication Engineering | Buddha Institute of Technology, Gorakhpur | 2016 – 2020

Google Associate Cloud Engineer Certification
